09/09/16	Revised the Information Security Booklet	Information Security	<p>The updates included the removal of redundant management material and a refocus on IT risk management and an update of information security processes. The revision reflects changes in the industry, it streamlined and reordered information security concepts throughout the booklet. The updates are consistent with the FFIEC Cybersecurity Assessment Tool (CAT) and the NIST Cybersecurity Framework as appropriate. The booklet contains updated examination procedures to help examiners measure the adequacy of an institution’s culture, governance, information security program, security operations, and assurance processes.</p>
04/29/16	Added Appendix E to address Mobile Financial Services (MFS)	Retail Payment Systems	<p>The update consists of the addition of a new appendix, <i>Appendix E: Mobile Financial Services</i>. Appendix E focuses on the risks associated with MFS and emphasizes an enterprise-wide risk management approach to effectively manage and mitigate those risks. The update included the following:</p> <ul style="list-style-type: none"> • A workprogram specific to MFS. • An update to the glossary to incorporate terminology in the appendix. <p>The other sections of the booklet remain unchanged.</p>
